Our Services

PSS SERVICES

Our highly regarded and certified Personal Support Staff (PSS) will assist an elder individual to maintain their independence. We can support them in their homes doing personal care (bathing, dressing and toileting), as well as light housekeeping, meal preparation and transportation.

RN SERVICES

Many of our clients benefit from the ongoing care of a nursing professional. In home nursing services include medication box prefills, routine foot care; nail cutting, venipuncture and medication information. Assessments are offered to identify the needs of the clients.

HOMEMAKER SERVICES

Sometimes personal care is not always needed. Small household chores can improve someone's life at home. Our homemaker services offer a clean and safe home for the ones you love.

HOME MODIFICATION SPECIALISTS

Home modifications ensure access and safety, which is paramount for our clients living at home. We offer many of these services including building ramps, installing grab bars, yard work, snow removal and home modifications. Free estimates and reasonable rates make this a popular service.

TRANSPORTATION

We strive to support our elderly community in any way we can. Experience the convenience of our escort services so that your loved one can travel to their needed destinations with a trusted and caring individual.

CHRISTIAN CAREGIVERS

A religious connection with a caregiver can be comforting. Sharing Christian values is important to many Americans. Our Christian Caregivers offer the peace of mind that faith brings to so many. This is a match made in Heaven.
